

Welcome to Trinity Medical Associates

We are very thankful and very much appreciative of the confidence you have placed in us by selecting us as your medical care providers! At Trinity, our goal is to provide excellent and compassionate medical care for the entire family.

The relationship we are entering into is like most relationships, there are responsibilities and privileges with each of us. We would like to practice medicine with honesty, competence, and integrity. You should expect that from us. We trust that you will provide us with concise and reliable information which will enable us to make sound decisions and to be able to offer the best advice to you.

We feel that keeping a person healthy is more than maintaining their body. We also are concerned with the other aspects of you as a person, your emotional and spiritual health. We encourage you to share your wishes and expectations regarding this as well.

Prior to your first appointment, it would be helpful to set up your patient portal account and complete the new patient information. To do this, please visit our website at www.trinitymedical.net and click on the *Patient Portal* link. From there you can create a user name and password. This will allow you to complete and update your information as well as communicate with our office for your refill requests, clinical questions and appointment needs. You can also pay your bill online and access your clinical summaries from recent office visits.

We want to make your experiences in our office positive ones. Please alert us to any special needs, questions or concerns. If there is ever anything we can do to improve your experience in our office, please let us know.

Thank you for allowing us to serve you! We look forward to seeing you soon.

Sincerely,

Melissa C. Porter
Assistant Practice Manager
